Maharashtra State Board Of Secondary and Higher Education, Nagpur.

Montfort Hr.Sec School, Ballarpur - *Secondary*(X)
Year 2006 - Year 2017

CBSE

EXPERIENCE

Summer Research Intern - *DYPIU, Pune.*
June 2021 – July 2021
Caste, Wealth and Regional Inequalities in Health Status in India.

The present Report has made an attempt to assess the different human development factors like the health status of the caste-biassed population in India. For this purpose, secondary data have been collected, Sorted, Analysed, and made reports.

PROJECTS

Bus management system in DBMS(*Done)*
- This project was made to help us to study and understand the data management systems.
- And it also solves some small problems in the current existing bus booking system.

Brain Tumor Classification(*Done)*
- The aim of this project is to predict the position of tumors in brain MRI using deep learning algorithms.
- We used Mask R-CNN to build an actual detector that will point out the location of the tumor on the scan.

A. I. based security system(*Ongoing)*
- Our project deals with security by using security cameras we planned to merge A.I. (Which will also make a track on vehicles) with the current existing security system for managing and securing the parking.
- We got this idea from our college entrance system which is very slow and also money consuming.

POSITIONS & RESPONSIBILITY

Campus Ambassador
Entrepreneurship Cell, IIT Kharagpur
2021 – 2022.
